May we pray. Our Father in heaven we are grateful for all of the blessings of life that you have bestowed upon us. We thank thee for the challenges of this day and we ask that you would bless the members of this Legislature as we deliberate that we might make decisions which are right and are in keeping with thy holy will. Bless us now Father as we debate and as we carry forward the business of the State of Florida and that in all things we might seek to bring equity and fairness into the business of government. MESSAGES FROM THE HOUSE OF REPRESENTATIVES

The President assigned the bill contained in the following message to the Committee on Rules, Calendar, Privileged Business and Ethics for examination and report back to the Body.

The Honorable Jerry Thomas
President of the Senate

January 29, 1971

Sir:

I am directed to inform the Senate that the House of Representatives has admitted for introduction by the required Constitutional two-thirds vote and adopted—

By Representative Pettigrew and others—

HCR 1-B—A concurrent resolution making application to the Congress of the United States to call a convention for the sole and exclusive purpose of proposing to the several states a constitutional amendment providing for sharing by state and local governments of federal income tax revenues;

WHEREAS, a resolution of our nation's myriad and diverse problems is contingent upon a viable partnership between the federal government and strengthened state governments, and

WHEREAS, the federal government, by its extensive reliance on the graduated income tax as a revenue source, has virtually preempted the use of this source from state and local governments, thereby creating a disabling fiscal imbalance between the federal government and the state and local governments, and

WHEREAS, increasing demands upon state and local governments for essential public services have compelled the states to rely heavily on highly regressive and inelastic consumer taxes and property taxes, and

WHEREAS, federal revenues based predominantly on income taxes increase significantly faster than economic growth, while state and local revenues based heavily on sales and property taxes do not keep pace with economic growth, and

WHEREAS, the fiscal crisis at state and local levels has become the overriding problem of inter-governmental relations and of continuing a viable federal system, and

WHEREAS, the evident solution to this problem is a meaningful sharing of federal income tax resources, and

WHEREAS, the United States Congress, despite the immediate and imperative need therefor, has failed to enact acceptable revenue sharing legislation, and

WHEREAS, in the event of such congressional inaction, Article V of the Constitution of the United States grants to the states the right to initiate constitutional change by applications from the legislatures of two-thirds of the several states to the Congress, calling for a constitutional convention, and

WHEREAS, the Congress of the United States is required by the Constitution to call such a convention upon the receipt of applications from the legislatures of two-thirds of the several states,

NOW, THEREFORE,

Be It Resolved by the House of Representatives of the State of Florida, the Senate concurring:

That, pursuant to Article V of the Constitution of the United States, the legislature of the State of Florida does hereby make application to the Congress of the United States to call a convention for the sole and exclusive purpose of proposing to the several states a constitutional amendment which shall provide that a portion of the taxes on income levied by Congress pur-

suant to the sixteenth amendment of the Constitution of the United States shall be made available each year to state governments and political subdivisions thereof, by means of direct allocation, tax credits, or both, without limiting directly or indirectly the use of such monies for any purpose not inconsistent with any other provision of the Constitution of the United States.

BE IT FURTHER RESOLVED that this application shall constitute a continuing application for such convention pursuant to Article V until the legislatures of two-thirds of the states shall have made like applications and such convention shall have been called by the Congress of the United States unless previously rescinded by this legislature, and

BE IT FURTHER RESOLVED that certified copies of this resolution be presented forthwith to the president of the United States senate and the speaker of the United States house of representatives and to the legislatures of each of the several states attesting the adoption of this resolution by the legislature of the state of Florida.

—and requests the concurrence of the Senate therein.

Respectfully,
ALLEN MORRIS
Clerk, House of Representatives

By permission, the following report was read:

This is to advise that the Senate Committee on Rules, Calendar, Privileged Business and Ethics having met this date, does recommend as follows:

1. HCR 1-B be introduced, during this special session of the legislature, notwithstanding that it does not fall within the purview of the Governor's call.

2. The Senate Bill by Senator Weissenborn relating to county executive committees and political parties be introduced during this special session of the legislature notwithstanding that it does not fall within the purview of the Governor's call.

3. That the Senate Bill by Senator Fincher relating to passenger automobiles be *not* introduced during this special session of the legislature inasmuch as it does not fall within the purview of the Governor's call.

SECOND READING

SJR 9-B—A Joint Resolution proposing an amendment to Section 5 of Article VII of the Constitution of the State of Florida, limiting the prohibition against estate, inheritance and income taxes to natural persons only, and providing an effective date.

On motion by Senator de la Parte, was read the second time by title.

On motion by Senator de la Parte, the rules were waived and the staff of the Committee on Ways and Means was accorded the privileges of the floor during the discussion of SJR 9-B.

The President Pro Tempore presiding.

The President presiding.

Senators Brantley and Scarborough offered the following amendment which was moved by Senator Brantley:

In Section 5, line 5, page 2, after the word "persons" and before the word "who" insert: , other than persons engaged in gainful occupations, businesses or professions who are required to pay an annual occupational state, county or municipal license and

Senator Pope raised a point of order that the amendment was not in order in that it imposed a tax on natural persons even though they be in business, and that it was, therefore, not within the purview of the Governor's call.

The President appointed Senators Wilson, Barron, Hollahan and Horne as a committee to advise the chair as to the point.

On motion by Senator Hollahan, the Senate stood in informal recess at 4:25 p.m., awaiting the call of the President.

The Senate was called to order by the President at 4:30 p.m. A quorum present.

Senator Karl was excused for the purpose of working on the preparation of the Conference Committee Report on HB 4-B.

Senators Pope, Gunter, Boyd and Broxson offered the following amendment which was moved by Senator Pope:

In Section 2, line 9, page 5, after the period (.) insert the following: provided, however, that with respect to any tax authorized herein no such tax shall be levied by the state, or under its authority in excess of five percent (5%) of net income, as defined by law, or of such greater percentage of net income as is authorized by three-fifths (3/5) affirmative vote of each house of the legislature, or as will provide the state with the maximum amount which may be allowed to be credited against income taxes levied on such taxpayers by the United States or other states.

Senators Weissenborn and Wilson offered the following substitute amendment which was moved by Senator Weissenborn:

On page 2, line 9, strike the period after "state" and insert the following: nor shall any income tax be imposed upon the first \$25,000 of the net income of a corporation before the imposition of federal income tax.

The Committee appointed to advise the President on the point of order raised by Senator Pope reported as follows:

A profound legal question exists which precludes an easy answer to the charge of the Chair. Simply put, that question is, does the Constitution of Florida permit a Governor to so subdefine the "purpose" of the call of the Legislature as to divine its response? We are mindful of the wisdom of the enjoinder to maintain the artfully conceived separation of powers. The Committee, recognizing that there must be some limit else a Governor might design a call which would simply call for a yes or no response, accomplished a cursory search of the law on this subject. It reflects that this power to limit does extend to a specified phase of the general subject but may not restrict the details springing from it. (See 82 CJS 27). It is our view that the Proclamation is, therefore, within the bounds of law. It is our advice to the Chair, that Article III, Section 3 (C-1) permits a governor a broad right of sublimitation in defining the sphere or fixed limits (purview) of legislative response to a Proclamation. There are limits to this authority and the Senate should guard against transgressions thereof. Each question, however, must stand upon a fair evaluation of the particular and specific circumstance.

Based on the foregoing, and a careful analysis of the language employed by the subject amendment and Proclamation, it is our opinion that Amendment No. 1 to SJR 9-B is out of order because it is beyond the purview of the expanded call or proclamation of the Governor dated January 27, 1971.

In response to your inquiry concerning the capacity of the Senate to assent to an amendment, otherwise out of order, as being beyond the purview of the call of a governor, by the two-thirds vote contemplated by Article III, Section 3 (C-1), we respectfully advise in the negative. The provisions permitting consideration of business beyond the purview of the proclamation specifically limits the broadening of the call to legislative business "introduced by consent of two-thirds of the membership of each House". Since an amendment is not "introduced" within the context of the Constitutional connotation, we advise that the broadening contemplated here cannot be accomplished by the amendatory process.

Respectfully submitted,

GEORGE L. HOLLAHAN, JR., Chairman
MALLORY E. HORNE
HAROLD S. WILSON
DEMPSEY J. BARRON

The President ruled the point well taken in that the amendment did constitute a personal income tax and was therefore out of order. The President requested that the Rules Committee and the Select Committee further pursue the statements contained in the advisory opinion and come up with a comprehensive report and additional refinements which could guide the Senate in the future in regard to such determinations.

On motion by Senator Hollahan, consideration of SJR 9-B with pending amendments was deferred, the joint resolution retaining its place on the calendar.

On motion by Senator Hollahan, the Senate adjourned at 6:09 p.m. to reconvene at 9:00 a.m., February 2, 1971.
